ITS action upon the system is very general, no part escaping its influence; it is, however, upon the secretorie and excretories, that its great power is particularly manifested; from this it will be seen to have a direct effect upon the biliary organs and to be particularly adapted to the treatment of bilious fevers, and other diseases where a torpidity or congestion of the liver and portal circle prevail; hence the great success that has attended its administration in liver affections and dyspepsia, and diseases of the stomach and bowels generally. Being diffusable in its operation, it produces a free circulation in the vessels on the surface of the body, accompanied by a general perspiration.

## A BARGAIN.

THE YAZOO BANNER OFFICE is offered for sale. Having determined to go into other business, the proprietors offer this very valuable establishment for sale, upon the best terms, if application is made immediately. It is with one exception the most profitable weekly Printing Office in the State, and has an increasing patronage of the most lucrative character. Its advertising columns, for the past two years, will evidence its immense revenue. This is perhaps the most fertile Cotton region in the State, and this is now no doubt one of the richest Counties in Mississippi, and in a few years will ship more Cotton than any County in the State. The patronage which the office has enjoyed must continue for several years, as the laws of the late Legislature, instead of shortening the time of the payments of debts, has so arranged it as to require that property shall be advertised now twice, when it was formerly but once, and hence to extend the time of paying debts.

It were a useless waste of time for us to indulge in a lengthy description of the advantages to be derived from a purchase of this office, as purchasers can best judge for themselves by calling upon either of the undersigned, and examining the same in person.
